

Southern Fasteners and Supply, Inc.
A 1st AMERICAN COMPANY

Fasteners: Little things that make a big difference.

Southern Fasteners and Supply, Inc. is a Native American owned company.

800-642-0921 or visit us at **southernfasteners.com**

QUALITY SYSTEM
REGISTERED TO: **ISO 9001:2015 & AS9120B***

We serve a variety of industries including oil and gas, military, construction, power, chemical, and theme parks.

A one-inch-long, flat head socket cap screw doesn't seem like much, compared to the 200-acre industrial plant it is part of.

But we know better. That fastener makes a big difference. We respond to every order knowing that there's a lot riding on our customers getting precisely the right part, and having it on hand when they need it. Our experience, expertise, and commitment to precision have allowed our customers to depend on us for over 35 years.

With 11 locations spanning the country, we're serving partners in the OEM and MRO markets with first-rate inventory management solutions that help them streamline processes and boost efficiency.

Our Vendor Managed Inventory program means you never have to worry about your inventory again.

Vendor Managed Inventory Program

Class C MRO items like nuts and bolts often represent only 1% of a business's MRO cost, but can consume 50% of their total administrative cost.

Our VMI program is a service that manages your company's Class C materials. We handle the quality control, ordering, and replenishment of all of the parts you need, eliminating the time and effort of stocking your bins yourself.

Our dedicated Service Technicians monitor your inventory levels to ensure you have the parts you need, when you need them. Our regularly scheduled service simplifies ordering, reduces customer touches and eliminates the risk of zero inventory problems. As we replenish your inventory, we remove all waste, leaving the area a clean and safe environment. Our Vendor Managed Inventory service is custom designed for your needs, not a one-size-fits-all approach, providing cost-conscious solutions and dependable service at a fair price.

Certifications

Southern Fasteners and Supply is a Native American owned and a nationally certified Minority Business Enterprise (MBE). We are also a proud Corporate Plus® member of the National Minority Supplier Development Council, for our successful execution of national contracts with major corporations – a distinction awarded to less than 1% of the 12,000 certified MBE's across the country.

Data Sharing and Integration

We integrate with EDI and programs like ARIBA, SAP and Taulia to make billing, ordering, tracking, and reporting as efficient as possible.

Quality Assurance Program

- ISO 9001:2015 & AS9120B
- DOE 414.1A Compliant
- DOD MIL-45208A Compliant
- Product traceability

*Issued to Headquarters in Winston-Salem, NC. All other locations are held to the same requirements, but are outside the scope of these accreditations.

Emergency On-Call Services

When you need a part, you need it now. That's why we offer 24/7 emergency fastener services to get you back in business fast. Over the years we have gone to extreme measures to get parts to customers. For example, we once bought a plane ticket for a fastener that needed to be to a customer faster than any delivery service could get it there!

Barcoding and Labeling

Make reordering and organizing your bins quick and easy. All Southern Fasteners and Supply material is shipped with product numbers, barcodes and a full description of the part. A variety of custom labels can be made to fit your needs. Logos, material specs and your part numbers can be added for your convenience.

Kitting, Assortments, Assembly

Eliminate down time and speed up operations with pre-packaged kits or custom assortments. We can package related pieces together or work with your bill of materials to create the best kit for your needs. We have a variety of box, bag and labeling options for your specific application. We can even assemble mating parts to ensure you have everything you need for the job to run smoothly from start to finish.

We stock and distribute more than 130,000 different fasteners and MRO products for a wide range of industries.
